1. **Why does the program show errors where there are no errors?**
2. **What is the instructor's password?**
3. **Will this product run on a network?**
4. **How do I install this program on a network?**
5. **Will this product run on an NT network or from Windows 95 or Windows 3.1?**

FAQs

1. **Why does *MicroPace Plus* show errors where there are no errors?**
   The student should use the following steps to select a timed writing:
   - After choosing Timed Writing from the Main menu, use ALT-F1 command to bring up a menu of the writings that are available. Highlight the timing desired and press enter.

2. **What is the instructor's password?**
   Instructors may call Technical Support for the password.

3. **Will this product run on a network?**
   MicroPace Plus was tested on the Novell network and the Novell network with ICLAS.

4. **How do I install this program on a network?**
   There is a READ.ME file on the 3.5" program disk which has information for installing *MicroPace Plus* on IBM compatible networks.

5. **Will this product run on an NT network or from Windows 95 or Windows 3.1?**
   MicroPace Plus was developed and tested prior to Windows and NT network technology. It is a DOS product and seems to run fine under Windows, both 3.1 and 95, but has not been tried in the NT network environment.
